

## PRODUCT DETAILS

# THC-30 GUMMIES

High-Potency THC for Chronic Pain & Relaxation

RRP \$99

WS \$84

30 pieces | WS \$0.11 / mg

## PRODUCT INFORMATION

For patients with higher THC tolerance, Coronel Buendía THC-30 Gummies provide 30mg of pure THC per piece, offering long-lasting relief for chronic pain, muscle tension, and sleep disturbances. This formulation delivers a potent, targeted THC effect that may help reduce inflammation, promote muscle relaxation, and support deeper sleep.

Unlike vaporised flower, which enters the bloodstream rapidly through the lungs, edibles undergo first-pass metabolism in the liver, converting  $\Delta 9$ -THC into 11-hydroxy-THC, a more potent and longer-lasting metabolite. This process results in a delayed onset (1hr+) but extended effects lasting up to 6-8 hours, making gummies an effective option for sustained symptom management.

Manufactured in Australia, these sour apple flavoured gummies provide precise and consistent dosing, ensuring a controlled intake for patients seeking prolonged relief.
